

Why Employers Need an On-site

Integrated Into Their Employee Wellness Program

A woman with brown hair, wearing a grey knit beanie and a grey sweater, is shown in a close-up shot. She has a stressed or sad expression, with her hands pressed against her temples. She is holding a mobile phone to her ear. The background is dark and out of focus.

You are the HR professional, we
don't have to tell you how
employee stress impacts your
business

**THIS IS HOW IT
IMPACTS YOUR
EMPLOYEES**

**MANIFESTATION

So What Is the Challenge We Are Addressing For You?

Human Resource Departments have no immediate resources on hand to address the employee's stress issues and begin mitigating the exposure it represents to your company in terms of productivity, and financial and legal exposures.

May we introduce you to

LIFE VESSEL
— ADVANCED WELLNESS —

Introducing

A FDA cleared, patented device utilized for relaxation applications.

Relaxation benefits include:

- Stress relief
- Enhanced immune systems
- Higher energy levels
- Better sleep patterns
- Improved cognitive abilities

The modality utilizes sound frequencies, light and vibration, presented in a non-invasive, comfortable setting for your employees to enjoy and benefit from.

**A Low
Maintenance,
Easy To Use,
Monitored or
Self-Serve
System**

The employee reclines in a horizontal position for approximately one hour and is presented with a soothing combination of sound, light and vibration effects. It can be self-used or monitored if HQ results are desired

The Life Vessel Corporate Wellness Program Includes a Heart Quest Evaluation System

The HQ unit, via a wrist attachment, provides empirical data in four key testing areas. This evidence-based data will measure employee improvement over a series of Life Vessel sessions.

- CARDIO-VASCULAR
- AUTONOMIC NERVOUS SYSTEM
- NEURAL-HORMONAL
- PSYCHO-EMOTIONAL

What Our HV Testing Shows

Stress Index:

A quantifiable measurement of the amount of stress in one's body.

ANS Index:

A quantifiable measurement of the Autonomic Nervous System of one's body factoring in the Sympathetic (LF), Parasympathetic (HF) and secondary Neural-Hormonal (VLF) backup systems.

Biological Age:

A description of one's age based on biomarkers within the body. Biomarkers are recordable cellular or molecular events.

Autonomic Nervous System Test ("ANS"): Normal Range: [35 to 145 (lower is better)

Up and Running In Two Days:

The manufacturing time for your Life Vessel is from 4 to 6 weeks. When it is ready, we will deliver it to your location and conduct a two-day installation and training program for staff and employees. In the mean time, you can internally promote your newest employee wellness benefit: “Coming Soon – Life Vessel Relaxation Program free to our employees” (Note: this is normally a \$400 retail value)

Why Employers Should Have Life Vessel/HeartQuest Services On-Site

1

Immediate Stress Relief Resource

Most HR Departments do not have any effective manner in which to direct a stressed employee for immediate relief. An onsite Life Vessel provides a positive and instant remedy to begin dealing with the employee's issue.

2

Mitigation of Liability

The before and after test results provide supporting evidence of (a) the actual condition of the claimed stress, backed by before and after measurements, which can ward off and discourage any questionable claims of stress by employees with a workers' compensation or litigious intent.

3

Employees Love It

Life Vessel is a true employee benefit. The retail price for Life Vessel Therapy sessions across the country is \$100 per session, in a package of four treatments. This is a \$400 perk from you to your employees. They will love the results. Keep them well, keep them at work!
